TEAM

Supported by Grace since 1971

Each growing up in Christian homes, Gary and Sherryl joined TEAM in 1968. They worked in church planting, then took on administrative leadership roles from Europe to Latin America to Southern Africa.

Currently, Gary fills the role of Director of Homeland Missionaries.

Gary oversees the ministries of all TEAM missionaries in North America that are on home assignment, on special assignment, or on a health care leave.

This job includes ensuring that the missionaries in these categories receive the physical, emotional, and pastoral care that they need. It also involves giving guidance and accountability to the missionaries for completing the mission requirements and the objectives for their time in the homeland.
