Logos Faith Foundation

Supported by Grace (Home Church) since
2005

After being brought up in an Orthodox Hindu family, Daniel became a believer in Jesus and was secretly baptized in the Indian state of Tamil Nadu. Having received an MA and Doctor of Divinity, Daniel now serves in North India along with his wife, where they do church planting and pastoring. Daniel trains national pastors in evangelism and church planting. He is also a visiting professor at a Bible College in Russia and has travelled to Kenya for speaking engagements.

Community development training with women and children is an additional part of their work. They are facilitating church-planting in 7 states of northern India. One major goal of Logos Faith Foundation is to plant 500 house churches by 2015.
