African Inland Mission Int'l.

Supported by Grace Church since “can’t
remember when,” but with AIM since ’56

Chuck & Bobbi have been with AIM since January 1956. They started out in Tanganyika, now Tanzania. They placed themselves under the direction of the African church they worked with during their years in East Africa and never regretted that decision. Their last 30 years were with Africa Inland Church in Kenya where their main task was always tied in with evangelism of the people they worked among. For many years the Kinzers used the production and distribution of Christian literature as a platform for reaching unbelievers. “Our efforts were always designed to establish, strengthen and work under the local church.”

Currently, the Kinzers’ service includes personal evangelism and training new Christians in witnessing. Their target people are all those without Christ in central Florida.
